Concession and BNDES support to Infrastructure

December, 2012
Institutional Aspects
Founded on June 20th, 1952;

100% state-owned company under private law;

Key instrument for implementation of Federal Government’s industrial and infrastructure policies;

Main provider of long-term financing in Brazil;

Emphasis on financing investment projects;

Support to micro, small and medium-sized companies;

Brazilian Export Bank.

**ROA** = Return On average Assets  
**ROE** = Return On average Equity
Project Structuring Division
Brazilian Infrastructure Outlook

Diagnostic

• Gap between investments in infrastructure and the desired growth
• The absence of good projects represents obstacle to investment in infrastructure
• There are no restrictions on private resources for investment in infrastructure

Needs

• Flow of projects for approval
• Agility
• Impartiality when carrying out studies

In order to help the efforts to overcome these challenges BNDES decided to create the Project Structuring Division.
BNDES’s Project Structuring Area - AEP, responsible for structuring projects of public concessions and PPPs for Federal Government, states and municipalities;

The activity called "project structuring " is meant to be prior to project deployment and must not be confused with the traditional activity of BNDES financing to ventures.
BNDES’ operations in Project Structuring

Project Structuring Division

- To foster, structure and coordinate infrastructure projects as part of public concessions and Public-Private Partnerships (PPPs).

- To follow and stimulate the establishment of partnerships and articulate with entities of Public Administration and International Entities; to structure and model infrastructure projects to verify feasibility.
Mechanisms of Projects Structuring

Project Structuring Fund FEP

EBP
Project Structuring Fund (FEP)

• BNDES’s statutory fund of budget applications.

• **Objective:** To fund studies and research aimed at guiding public policy, identifying and developing projects that can provide structuring investments.
  - Sector knowledge;
  - Regulatory framework;
  - New and better projects

• **Studies:**
  - Exploration and production of Oil & Gas – concluded
  - Aviation Sector Study – concluded
  - Restructuring of INFRAERO – concluded
  - Bioceanic Railway Corridor – concluded
  - Port Sector Study – in progress
• Focus on innovative projects, involving long-term contracts, in sectors where the private sector is not yet actuating, and development in new institutional and business environments

• Fund administered by IFC with resources from multilateral organizations and BNDES PAR;

• Project Portfolio
  • BH Basic Health Units (MG): awaiting publication of the notice and its attachments
  • Image Diagnostics Center (BA): under study
  • Forest Concessions – Itaituba I e II (PA): initial studies
Brazilian Project Structuring Company (EBP)

- Partners: Banco do Brasil; Banco Espírito Santo; Banco Santander; Banco Votorantim; BNDESPAR; Bradesco; Citibank; Itaú/Unibanco and HSBC.
- Development of infrastructure projects of public interest and attractive to private investors.

Projects Portfolio

**Ongoing Projects**
- 4th Stage of Highway Concessions: studies initiated in August, 2012;
- São José dos Campos Incinerator: public consultation;
- Vitória/ES Sanitation: public consultation done;
- SP Shopping Circuit: Under final study;
- SP Parking: auction date Phase 1: Dec.13, 2012 (Phase 2: auction date to be defined);
- BH Parking: public consultation;
- COPASA: public consultation;
- BH Metropolitan Hospital: contract signed on March 28, 2012;
- BHBus Integration Terminals: contract signed on March 19, 2012;
- Concession of Airports - contracts signed for 3 airports (GRU, BSA, VCP) - June 2012.

**Concluded Projects**
Ongoing Projects

**Airports**
- Concession of Regional and some other main airports

**Health**
- Basic Health Units in Belo Horizonte (MG)
- Image Diagnostics Center (BA)

**Sanitation / waste treatment**
- Sanitation in Serra (ES)
- COPASA – Water treatment in Metropolitan Region of Belo Horizonte (MG)
- Solid waste incinerator in São José dos Campos (SP)

**Public Transport**
- Parking Lots in Belo Horizonte (MG) and São Paulo (SP)

**Highways**
- BR - 040 (DF/MG); BR - 116 (BA/MG to MG/RJ); 4th Stage of Highway Concessions; BR -101 (RJ-ES to BA); BR-093 (BA); BR-116/324 (BA)

**Railways**
- High-speed Train linking Campinas (SP) to Rio de Janeiro (RJ)

**Other Projects**
- Shopping Circuit in São Paulo (SP)
- Forest Concessions – Itaituba I e II (PA)

Modalities of Financing
• **Corporate Finance**

  Collaterals driven to the company assets, bank warrants and/or shareholders

• **Project Finance**

  Financing a specific project, not the company’s business as a whole. Segregate the project costs, revenues and risks in a special proposed company (SPC)
• Beneficiary: SPC

• Project cash flow support the loan installments
  - Debt Cover Ratio (DCR) greater or equal to 1.20;
  - DCR greater or equal to 1.30 (for projects with IRR lower than 8% p.a.);

• Pledge of all future revenues to the loan providers

• Equity minimum: 20% of total investment budget
**Risks**

- Project Rating;
- Sponsors analysis;
- Credit analysis of the receivables;
- Engineer, Procurement and Construction – EPC constitution;
- Risk sharing: participation of other lenders in the funding;
- Accordance to the ambiental law.
Example: Small Hydro (19 MW)

1) Investment = R$ 144 million  Financing = R$ 71 million  Leverage = 49%
2) Amortization = 16 years  Total period = 18 years
3) Constant Amortization System

</tr>
</tbody>
</table>

**Total Loan Cost**: Financial Cost + Basic Spread + Risk Spread (0.46% p.a. to 3.57% p.a.)

TJ-462 = TJLP + 1% p.a.
BNDES and the Project Bond

- Possibility to add a public Bond to the Project’s sources;

- The Bond can be issued on the SPC or on a holding company, which controls the SPC, in this case the funds from the bond should be incorporated to the project as equity.

- If the holding company is not listed in the stock market, it should sign a commitment to go public at Bovespa (São Paulo Stock Market) through an IPO (Initial Public Offering).
PPP’s Projects / BNDES Concession in Infrastructure
BR-116 MG Highway

- Location: BR-116 from the BA/MG border to the MG/RJ border, extending 817 km.
- Concession for 25 years of operation, maintenance, and expansion of capacity.
- Granted by the federal government (ANTT).
- Concessionaire Investment: US$ 2.1 billion (over 25 years);
- Current Status: Public Consultation.
- Expected auction date: December, 2012.
- Studies conducted by BNDES.
BR-040 DF/MG Highway

- Location: BR-040 from the Federal District to Juiz de Fora (MG), extending 937 km;
- Concession for 25 years of operation, maintenance, and expansion of capacity;
- Granted by the federal government (ANTT);
- Concessionaire Investment: US$ 1.6 billion (over 25 years);
- Current Status: Public Consultation;
- Expected auction date: January, 2013;
- Studies conducted by BNDES.
4th Stage of Highway Concessions

Concession by the Federal Government (ANTT)
Current stage: early studies in Agosto/2013;
Auction planned for Abril/2013;
Studies in partnership BNDES / EBP.

TOTAL 5.740 km
BH Basic Health Units

- Scope: construction, renovation, and management/operation of non-clinical services in the basic BH health network;
  - Works: reconstruction of 61 (sixty one) and construction of 19 (nineteen) new Health Centers; construction of 1 Central Sterile Material and 1 Diagnosis Support Unit;
  - Services: cleaning, building maintenance, maintenance of equipment and furniture, concierge, and surveillance.
- Estimated Amount of Investment: US$ 206 million;
- BNDES/IFC studies in partnership;
- Notice and its attachments are awaiting publication to start the bidding process.
Scope: Deploying of Network SERVICES BIOIMAGEM, hierarchical as the complexity of care, linked by resources of TELEMEDICINE AND INFORMATION SYSTEMS, covering the following tests:

- conventional radiology
- Mammography
- computed tomography
- magnetic ressonance

Adequacy of infrastructure of 27 units, and the construction of a central reports;

BNDES/EBP studies in partnership;

Ongoing studies: End of a diagnosis of the state of the network / early financial modeling.
Parking Areas in BH

- Project: Concession to construct parking lots in downtown BH;
- Part of the current 18,000 parking spaces on the streets (Blue Lane) will be transferred to underground parking lots;
- Amount of the investment: R$ 349MM;
- BNDES/EBP studies in partnership;
- Current status: Public Consultation.
Parking Areas in SP

Area under study

- **Project**: Phase 1: common concession for the construction, maintenance, and operation of 2 parking lots in downtown São Paulo; Phase 2: recommendations to re-qualify the parking policy in the city of São Paulo and the concession of 10 additional parking lots;

- **Location**: São Paulo, SP;

- **Creation of new spaces in Phase 1** to meet demand and prioritize the creation of spaces under the *park & ride* model in Phase 2;

- **Amount of the investment**: approximately US$ 97MM on Phase 1 and US$ 386MM on Phase 2;

- **BNDES/EBP studies in partnership**;

- **Current status**: Phase 1: Public Consultation; Phase 2: studies delivered. Concluding discussions on policy guidelines for parking lots;

- **Phase 2 studies**: delivered in July, 2012.
COPASA: Water supply

- Project: Concession for the construction, maintenance, and shared operation of the Rio Manso Water Production System (SRM);
- SRM supplies 33% of the RMBH;
- Expansion from 4m³/s to 5m³/s;
- Amount of the investment: US$ 359 million;
- Concession period: 15 years;
- BNDES/EBP studies in partnership;
- Current status: Public Consultation.
ES Sanitation

Sewage system in Espírito Santo

- Scope: Administrative Concession for the expansion, maintenance and operation of a sewage system;
- Concession term: 30 years, with possibility of a 5 years extension;
- Location: Serra, ES;
- Pop.: 409,000 inhabitants;
- Sewage coverage and client adherence:
  - Current 50% with 60% of adherence;
  - Target: 90% coverage at the end of the 20th year, with 95% of clients connected;
- Investment: US$ 410 MM to US$ 530MM;
- BNDES / EBP studies in partnership;
- Current status: Review of engineering studies and drafts of bidding and contract documents for publication of notice;
- Public Consultation: April, 2012

Espírito Santo area: 46,184 sq.km
Denmark area : 43,098 sq. Km
Serra area : 553.25 sq. km
Solid Waste in São José dos Campos

- **Scope**: Administrative concession for the construction and management of an energy recovery system from solid urban waste treatment, including environmentally-friendly final destination;

- **Concession term**: 30 years, extendable to 35 years;

- **Location**: São José dos Campos (SP);

- **Pop**: approximately 630,000 inhabitants and 672 metric tons of waste/day;

- **Investment**: US$ 100 MM;

- **BNDES/EBP studies in partnership**;

- **Current status**: tender documents under review;

- **More information available at**: http://servicos.sjc.sp.gov.br/servicos/hotsitessemea/
SP Shopping Circuit

Map of the logistics circuit and functions of the project

- Project: Concession for the construction, maintenance, and operation of the popular shopping center, shopper support center, drivers and guides, circular transportation of passengers and cargo, bus terminal, parking for busses and automobiles, hotel and commercial towers;

- Location: Downtown São Paulo, SP;

- Daily flow of 523,000 shopping tourists; 21,000 of which are from other cities and states;

- Amount of the investment: US$ 3400MM;

- BNDES/EBP studies in partnership;

- Current status: ending studies;

- Term studies: December, 2012.
Forest Concession: sustainable management

• Concession allows:
  ✓ Wood production;
  ✓ Exploitation of non-wood products, such as vegetal oils, plants and fruits;
  ✓ Commercialization of waste wood for firewood use;
  ✓ Additional services (i.e.: ecotourism).

• Concession does not allow:
  ✓ Access to genetic assets;
  ✓ Use of water resources above the legally permitted limits;
  ✓ Exploitation of mineral resources;
  ✓ Exploitation of fishing resources or wildlife;
  ✓ Commercialization of carbon credits;
  ✓ Exploitation of traditional products used or exploited by local communities for their living.

• > 70% of the Amazon region are public areas;
• 240 M.ha are public forests, 24 M.ha (59.3 M acres) of which are exempt of any legal restriction for concession;
• FLONAS in study: Itaituba I e II.
BUSINESS MODEL

Premises

• Concession 1 (C1): Systems, rolling stock and operation and maintenance;
• Amount of investment C1: US$ 2.84 billion;
• Payment C1: ticket’s sale + parcel freight.

• Concession 2 (C2): Infrastructure Implementation + real estate;
• Amount of investment C2: US$ 17.61 billion;
• Payment C2: Public contribution for the use of infrastructure.

• Concession’s term: 40 years after the beginning of operation.

Schedule

• Publication of the Tender Documents of Concession 1: August/2012;
• Expected auction date of Concession 1: May/2013;
Concluded Projects
BR-101 BA/ES Highway

- Location: BR-101 Highway from the junction with the BA698 Highway (access to Mucuri, BA) to the border between ES/RJ, extending 476 km;
- Concession for 25 years of operation, maintenance, and expansion of capacity;
- Granted by the federal government (ANTT);
- Concessionaire Investment: US$ 1.4 billion (over 25 years);
- Auction held on January 18, 2012 (discount in the toll rate of 45%);
- BNDES/EBP studies in partnership.
