Cont...
Process of National SME Policy 2019 Formulation

- Understanding the SME Universe – Evidence based policy design
  - Secondary data: Literature Review and analysis of available datasets
  - Primary data: Stakeholder consultations and analysis both Private (over 200 firms) and Public sector (Federal and Provincial)
  - Survey data: Specific responses from firms were obtained on structured questions – over 160 respondents across the country

- Review of SME Policy 2007

- Review of existing national policies on credit and skills

- Review of policies and practices in other countries - suitability in the local context

- Discussion with National SME Policy Steering Committee

Technical Assistance provided by USAID funded Small & Medium Enterprise Activity (SMEA)
Draft National SME Policy 2019

Vision

An SME sector that is globally competitive and innovative, creates high value jobs, and encourages SMEs to scale up and move towards value-added exports

Mission

Provide an enabling business and investment environment with ease of tax & regulatory compliance, and equal & sustainable access to credit, business services, productive human capital, technology and infrastructure for cross-sectoral SME growth
Policy Principles

- Addressing market failures
- Improving capability & reducing capacity gaps - public sector
- Incentivizing registration of firms
- Gender inclusion and Women Entrepreneurship Development
- Improving business & regulatory environment
- Targeted support through efficiency of public expenditure
- Strong institutional mechanism to advocate for SMEs
- Geographically inclusive balanced provision of basic infrastructure
Policy Framework

SME Definition
- Variables
- Threshold

Macro Policy & Regulatory Environment
- Trade & Investment Policy
- Fiscal Policy
- Licensing & Regulations

Supply Side Challenges
- Business Development Services
- Credit
- Human Resource & Skills
- Infrastructure
- Entrepreneurship

Demand Side Challenges
- Market Access
- Marketing

Institutional Framework
- National SME Council
- Strengthened SMEDA - Resource Provision
- Policy Implementation and M&E
## Proposed SME Definition

<table>
<thead>
<tr>
<th>Enterprise Category</th>
<th>Employment Size</th>
<th>Annual Sales</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small</td>
<td>Up to 50</td>
<td>Up to Rs. 150 million</td>
</tr>
<tr>
<td>Medium</td>
<td>51-250 (Manufacturing &amp; Service MEs)</td>
<td>Above Rs. 150 million and up to Rs. 800 million</td>
</tr>
<tr>
<td></td>
<td>51-100 (Trading MEs)</td>
<td></td>
</tr>
</tbody>
</table>
Macro Policy & Regulatory Environment

• Simplification of custom duty structures and refunds regime

• Pending payments for sales tax and duty drawback refunds to be first disbursed to SMEs

• Rationalization of import tariffs on raw materials, intermediate goods and machinery

• Establishment of bonded warehouses for import of key inputs

• Strict penalties on the cartelization of commercial importers of raw materials
Macro Policy & Regulatory Environment

• SMEs to pay 20% corporate tax

• FBR to design tax incentives to channel savings into equity finance:
  • Individual savings up to PKR 2 million can be invested in stocks and shares, with up to PKR 200,000 tax free dividend allowance, and no capital gains tax on increases in the value of stocks and shares.
  • Develop a tax regime providing tax relief for capital gains tax, and provisions for loss relief for corporate investors to channel their savings to equity finance e.g. to incubators, accelerators and other venture capital and business angel activity.
Macro Policy & Regulatory Environment

• Income tax holidays be made conditional on sourcing labor and inputs locally.

• Expenses incurred by either SMEs or MNCs that build SME vendor capacity to levels required by MNCs e.g., licensing, labor training, technology upgradation, improvement in management practices be made tax deductible.

• Further refinement of process of tax collection by moving to e-challans and e-payments.

• Separate window for SMEs at Tax Ombudsman at FBR with a time limit set to dispose all complaints.

Cont...
Initiate and implement the regulatory guillotine for ease of doing business

Reduction of intrusion in business from inspection:

- Self-report or inspections through trade bodies
- Sample inspection by government departments
- Reduce discretionary powers of field inspectors
- Payment of all fees and taxes be made through e-challans

Cont...
Addressing Supply Side Constraints
Business Development Services (BDS)

- Undertake Sector focused development initiatives; identifying high growth sectors and implementing initiatives for growth (garments, light engineering, leather, agro-food)

- Develop portal to link SMEs registered with SMEDA to BDS providers

- Cost Sharing mechanism for BDS services for up to 5 years;
  - A larger portion of costs be shared for women-led firms
  - Support in enhancing market access, obtaining quality certifications, access to finance, technology, conducting energy audits etc.
  - SMEDA to oversee quality and efficiency of BDS provided

- BDS activities be funded through an Endowment Fund for SME Development (EFSD)
Addressing Supply Side Constraints

Skills, Human Resource & Technology

• NAVTCC & Provincial TEVTA to address issues of mandate overlaps
  • Facilitate growth of private sector skills providers
• Increase demand led and partnership based trainings to improve supply composition
• SME needs assessment & linkage with service providers
• SMEDA to be placed on boards of NAVTTC & all Provincial TEVTAs & Skills Councils
• Enhance job placement facilities and inclusion of women specific initiatives
• SMEDA shall support the launch of pilot technology up-gradation projects for major SME clusters and support SMEs in procurement of suitable technologies to increase productivity, quality and competitiveness
Addressing Supply Side Constraints

Infrastructure

- Industrial units be offered block tariffs
- Provision of off-grid electricity to rural and remote SMEs in collaboration with private sector
  - Support development of a network of companies providing innovative off grid clean energy solutions
- Conduct spatial mapping to support infrastructure decisions
- Develop farm to market roads to link small and rural firms with main corridor arteries
- Ensure adequate space allocation for SMEs that are part of supply chain in industrial estates & SEZs under CPEC
- Pilot SME industrial estate based on a land lease model to reduce set-up costs for SMEs
Addressing Supply Side Constraints

Entrepreneurship, Innovation & Incubation

• Advocate adoption of Limited Liability Partnership Act 2017
• Create legal framework for crowd-funding and suitable rules for venture capital funds
• Initiate legal review to reform process of business closure incl. options to restructure debt
• Ensure effective implementation of Corporate Rehabilitation Act 2018 and promulgation of ensuing regulations
• Adopt a regulatory sandbox approach for monitoring & regulation of new businesses that are still evolving and developing e.g. fintech
• Evaluation & scaling up of incubation, accelerator programs with reservation for women
• Initiate entrepreneurship programs in schools & support entrepreneurship as a specialized stream in high schools and universities
• Conduct Entrepreneurship boot camp to train youth for accessing government’s youth entrepreneurship initiatives
Addressing Supply Side Constraints

Access to Finance & Related Services

- Implementation of State Bank’s SME Finance Policy 2017
- SME credit targets be set across definitional segments & women
- Regulatory framework to upgrade MFBs (enhance lending limits PKR 1mn)
- Establishment of Credit Guarantee Company
- Increase program based lending & value chain financing
- Establish Excellence Center to build capacity of Banks & SMEs on enhancing credit and increase Non-Financial Advisory Services
- Strengthen data collection on SMEs & support development of credit risk rating agency
- Encourage lending institutions to accept confirmed orders received from government as collateral to advance loans to SMEs
Increasing Market Opportunities

Market Access
