Until the Outputs and/or the product of the Services and/or the LSE Materials (as the case may be) have been returned or delivered, the Supplier shall be solely responsible for their safe keeping and will not use them for any purpose unconnected with the Contract;
- 17.1.2 (subject to any right of set off which LSE may have against the Supplier in respect of sums due from the Supplier to LSE) LSE will pay such sums which may be due and payable by way of Charges to the Supplier on termination of the Agreement subject to the Supplier having submitted all relevant information and (if applicable) invoices necessary for such payment to be made;
- 17.1.3 the accrued rights, remedies, obligations and liabilities of the parties as at termination, including the right to claim damages in respect of any breach of the Contract which existed at or before the date of termination shall not be affected by such termination; and

- 17.1.4 Clauses which expressly or by implication have effect after termination shall continue in full force and effect.

18. **MULTI-TIERED DISPUTE RESOLUTION PROCEDURE**

- 18.1 If a Dispute arises then the parties shall follow the procedure set out in this Clause:
- 18.1.1 either party may serve on the other a Dispute Notice setting out the nature and full particulars of the Dispute together with relevant supporting documents. On service of the Dispute Notice, a nominated representative of the Supplier and a nominated representative of LSE shall attempt in good faith to resolve the Dispute;
- 18.1.2 if the nominated representative of the Supplier and the nominated representative of LSE are for any reason unable to resolve the Dispute within thirty (30) days of service of the Dispute Notice, the Dispute shall be referred to a senior representative of the Supplier and a senior representative of LSE who shall attempt in good faith to resolve it; and
- 18.1.3 if the senior representative of the Supplier and the senior representative of LSE are for any reason unable to resolve the Dispute within thirty (30) days of it being referred to them, the parties will attempt to settle it by mediation in accordance with the CEDR Model Mediation Procedure. Unless otherwise agreed between the parties, the mediator shall be nominated by CEDR Solve. To initiate the mediation, a party must serve notice in writing ("**ADR notice**") to the other party to the Dispute, requesting a mediation. A copy of the ADR notice should be sent to CEDR Solve. The mediation will start not later than thirty (30) days after the date of the ADR notice.
- 18.2 The commencement of mediation shall not prevent the parties commencing or continuing court proceedings or other dispute resolution procedures in relation to the Dispute under Clauses 20.9 and 20.10 and which Clauses shall apply at all times.

19. **SAFEGUARDING**

- 19.1 The Supplier shall take all Reasonable Measures to prevent Serious Misconduct by the Supplier Personnel or any other persons engaged and controlled by it to perform any activities under the Contract and shall have in place at all times robust procedures which enable the reporting by Supplier Personnel and beneficiaries of any such Serious Misconduct, illegal acts and/or failures by Supplier Personnel to investigate such reports.
- 19.2 The Supplier shall take all Reasonable Measures to ensure that Supplier Personnel do not engage in sexual activity with any person under the age of 18, regardless of the local age of majority or age of consent or any mistaken belief held by Supplier Personnel as to the age of the relevant person.
- 19.3 The Supplier shall promptly report in writing any complaints, concerns and incidents regarding Serious Misconduct or any attempted or threatened Serious Misconduct by any Supplier Personnel to LSE (and where required by LSE in writing also to report to DfID and where appropriate to Appropriate Authorities) and (where the Supplier is domiciled in the United Kingdom) the Supplier shall (where appropriate) report such matters to UK Authorities.
- 19.4 The Supplier shall fully investigate and document all actual, alleged or possible cases of Serious Misconduct and shall take appropriate corrective action to reduce the risk and/or eliminate Serious Misconduct being committed by Supplier Personnel (which may include disciplinary action, termination of contracts etc.), such investigations and actions to be reported to LSE and Appropriate Authorities as soon as is reasonably practicable.
- 19.5 The Supplier shall not engage as Supplier Personnel for the purposes of the Services any person whose previous record or conduct which is known to the Supplier (or which ought to be known by a diligent supplier undertaking appropriate checks) indicates that they are unsuitable to perform the

Services and/or where they represent an increased and unacceptable risk of committing Serious Misconduct.

19.6 The Supplier shall comply with all applicable laws, legislation, codes of practice and government guidance in the United Kingdom and additionally, in the territories where the Services are being performed, relevant to safeguarding and protection of children and vulnerable adults, which the Supplier acknowledges may include vetting of Supplier Personnel by the United Kingdom Disclosure and Barring Service in respect of any regulated activity performed by the Supplier Personnel (as defined by the Safeguarding Vulnerable Groups Act 2006 (as amended)) and/or vetting by a local equivalent service. Where LSE reasonably believes that there is an increased risk to safeguarding in the performance of the Services, the Supplier shall comply with any reasonable request by LSE for additional vetting to be undertaken.

19.7 Failure by the Supplier to:

19.7.1 put in place preventative measures to eliminate and/or reduce the risk of Serious Misconduct; or

19.7.2 fully investigate allegations of Serious Misconduct; or

19.7.3 report any complaints to LSE and where relevant UK Authorities and/or Appropriate Authorities;

shall be a material Default of this Contract and shall entitle LSE to terminate the Contract on written notice with immediate effect.

20. GENERAL

20.1 **Matters beyond control:** Neither party shall be liable to the other as a result of any delay or failure to perform its obligations under the Contract if and to the extent such delay or failure is caused by an event or circumstance which is beyond the reasonable control of that party which by its nature could not have been foreseen by such a party or if it could have been foreseen was unavoidable. If such event or circumstances prevent the Supplier from providing any of the Services for more than six (6) weeks, LSE shall have the right, without limiting its other rights or remedies, to terminate the Contract with immediate effect by giving written notice to the Supplier.

20.2 Assignment and subcontracting:

20.2.1 The Supplier shall not assign, transfer, charge, or deal in any other manner with all or any of its rights or obligations under the Contract without the prior written consent of LSE (such consent not to be unreasonably withheld or delayed).

20.2.2 The Supplier may sub-contract obligations to sub-contractors provided that it:

(a) remains responsible for all acts and omissions of its sub-contractors (including any sub-sub-contractors) as though they were its own; and

(b) imposes on its sub-contractors obligations equivalent to those imposed on the Supplier under the Contract.

20.2.3 LSE may at any time assign, transfer, charge, subcontract novate or deal in any other manner with all or any of its rights under the Contract and may novate, subcontract or delegate in any manner any or all of its obligations under the Contract to any third party or agent.

20.3 **Notices:**

- 20.3.1 Any notice or other communication required to be given to a party under or in connection with the Contract shall be in writing and shall be delivered to the other party personally or sent by prepaid first-class post, recorded delivery or by commercial courier, at its registered office (if a company) or (in any other case) its principal place of business, or subject to the conditions set out in Clause 20.3.3 below sent by e-mail to the other party's e-mail address as set out in the Appointment Letter (or as otherwise notified by the other party from time to time in accordance with this Clause 20.3).
- 20.3.2 Any notice or communication shall be deemed to have been duly received if delivered personally, when left at the address referred to above or, if sent by prepaid first-class post or recorded delivery, at 9.00 am on the second Business Day after posting, or if delivered by commercial courier, on the date and at the time that the courier's delivery receipt is signed, or if sent by e-mail, at 9.00 am on the next Business Day after transmission.
- 20.3.3 Where notice is sent by email a copy of such notice shall also be sent on the day of transmission of such email, by one of the other methods set out in Clause 20.3.1 above.
- 20.3.4 This Clause 20.3 shall not apply to the service of any proceedings or other documents in any legal action.

20.4 **Waiver and cumulative remedies:**

- 20.4.1 A waiver of any right under the Contract is only effective if it is in writing and shall not be deemed to be a waiver of any subsequent breach or default. No failure or delay by a party in exercising any right or remedy under the Contract or by law shall constitute a waiver of that or any other right or remedy, nor preclude or restrict its further exercise. No single or partial exercise of such right or remedy shall preclude or restrict the further exercise of that or any other right or remedy.
- 20.4.2 Unless specifically provided otherwise, rights arising under the Contract are cumulative and do not exclude rights provided by law.

20.5 **Severance:**

- 20.5.2 If any invalid, unenforceable or illegal provision of the Contract would be valid, enforceable and legal if some part of it were deleted, the provision shall apply with the minimum modification necessary to make it legal, valid and enforceable.

20.6 **No partnership:** Nothing in the Contract is intended to, or shall be deemed to, constitute a partnership or joint venture of any kind between any of the parties, nor constitute a party the agent of the other party for any purpose. Neither party shall have authority to act as agent for, or to bind, the other party in any way. For the avoidance of doubt nothing in the Contract shall be deemed to make the Supplier an agent, employee or partner of LSE or DfID.

20.7 **Third parties:** A person who is not a party to the Contract shall not have any rights under or in connection with it.

- 20.8 **Variation:** Any variation, including any additional terms and conditions, to the Contract shall only be binding when agreed in writing and signed by an Authorised Officer of LSE.
- 20.9 **Governing law:** The Contract shall be governed by and interpreted in accordance with the laws of England and Wales.

- 20.10.2 If the Supplier is not domiciled in the United Kingdom or European Union (or is domiciled in the European Union but the United Kingdom has ceased to be a member of the European Union in circumstances where court judgements made in the United Kingdom are not recognised by members of the European Union as being enforceable in their jurisdictions) any Dispute which may arise out of or in connection with the Contract shall be exclusively referred to and finally resolved by arbitration under the LCIA Rules. For the avoidance of doubt, nothing in the Contract shall exclude or limit liability for fraudulent misrepresentation.

Annex 3: LSE Supplier Code of Conduct

Principles

LSE aims to create an inclusive culture of best practice with the Suppliers with whom it engages and which receive UK taxpayers' funds. All Suppliers should adhere to the overarching principles of the LSE Supplier Code of Conduct (hereafter "Code of Conduct").

Overarching Principles for Suppliers

- ✓ **Act responsibly and with integrity**
- ✓ **Be transparent and accountable**
- ✓ **Seek to improve value for money**
- ✓ **Demonstrate commitment to poverty reduction and DFID priorities¹**
- ✓ **Demonstrate commitment to wider HMG priorities²**

Supplier responsibilities

Suppliers and their sub-contractors (referred to in the following as "delivery chain partners") should ensure they have read and understood this Code of Conduct and their required compliance level and seek clarification from LSE where necessary. In particular, it is important that Suppliers and their delivery chain partners understand any risks and have systems in place to manage them. The compliance levels are: -

Compliance Level 2 – Suppliers with an individual contract value below £1m, or two or more contracts with LSE with a value of less than £5m;

Compliance Level 3 - Suppliers with an individual Contract value, or component of a Contract, with a value below the EU contracting threshold found here: -

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/850566/PN_for_New_Thresholds_2020_pdf.pdf

At this level (3) Suppliers are required to adhere to the Overarching Principles for Suppliers as set out in the above table and recognise, mitigate and manage risks. These Suppliers will not be monitored against the contractual Key Performance Indicators (KPIs) as referenced in Annex 3a and 3b.

Scope

This Code of Conduct forms part of the LSE (IGC) Supplier Terms and Conditions and full compliance and annual verification via a signed declaration (if applicable), to be found at Annex 3b, is mandatory for contracted Suppliers. Adherence to the Code of Conduct at the appropriate level is also a requirement for LSE's direct Suppliers and their delivery chain partners in receipt of DfID funding from LSE. LSE will monitor Suppliers in six priority areas as set out below using a set of Key Performance Indicators (KPIs) as referenced in Annex 3a and 3b.

¹ <https://www.gov.uk/government/organisations/department-for-international-development/about#priorities>

² <https://www.gov.uk/government/organisations/hm-treasury/about#priorities>

1. Value for Money and Governance

Key Performance Indicators KPI 1 a - b

Value for Money and financial transparency is an essential requirement of all LSE commissioned work. All Suppliers must seek to maximise development results, whilst driving cost efficiency, throughout the life of commissioned programmes. This includes budgeting and pricing realistically and appropriately to reflect delivery requirements and levels of risk over the life of the programme. It also includes managing uncertainty and change to protect value in the often challenging environments that we work in.

Suppliers must demonstrate that they are pursuing continuous improvement and applying stringent financial management and governance to reduce waste and improve efficiency in their internal operations and within the delivery chain. LSE expects Suppliers to demonstrate openness and honesty and to be realistic about capacity and capability at all times, accepting accountability and responsibility for performance along the full delivery chain, in both every-day and exceptional circumstances.

Specific requirements include:

- ✓ A transparent, open book approach, which enables scrutiny of value for money;
- ✓ Strict adherence to all UK (if applicable) and in-country government tax requirements;
- ✓ Processes for timely identification and resolution of issues which might be requested by LSE at any time.

2. Ethical Behaviour

Key Performance Indicators KPI 2 a- f

LSE Suppliers and their delivery chain partners act on behalf of the UK government and interact globally with country governments, other aid donors and their delivery partners, many stakeholders including citizens and directly and indirectly with aid beneficiaries. These interactions must therefore meet the highest standards of ethical and professional behaviour in order to uphold the reputation of the UK government.

Arrangements and relationships entered into, whether with or on behalf of LSE, must be free from bias, conflict of interest or the undue influence of others. Particular care must be taken by Suppliers and delivery chain staff who:

- a) are directly involved in the management of a programme or procurement of services; or
- b) who engage with i) frontline DFID staff ii) other deliverers of aid iii) beneficiaries (of aid)

Where those in a) and b) could be susceptible to undue negative or detrimental influence.

Suppliers and their delivery chain partners must declare to LSE where there may be instances or allegations of previous unethical behaviour by an existing or potential staff member or where there is a known or suspected conflict of interest. Where a potential or existing staff member has been employed by DFID or the Crown in the preceding two years Suppliers and their delivery chain partner must provide proof of compliance with the HMG approval requirements under the Business Appointment Rules.

Suppliers and their delivery chain partners must have the following policies and procedures in place:

- ✓ Development and proof of application and embedding of a Staff Recruitment, Management and Retention policy (which must address circumstances where there may be potential or actual conflict of interest and embedding of a Whistleblowing Policy)

- ✓ Ongoing monitoring of potential or existing personal, business or professional conflict of interest and their mitigation and management
- ✓ Ethical training for every staff member and staff updates in ethical working practices suitable to the development sector (e.g. UN Global Compact principles) including awareness of modern day slavery and human rights abuses
- ✓ Procedures setting out how, staff involved in DFID funded business, can immediately report all suspicions or allegations of aid diversion, fraud, money laundering or counter terrorism finance to the DFID Counter Fraud and Whistleblowing Unit (CFWU) at reportingconcerns@dfid.gov.uk or on +44(0)1355 843747.

3. Transparency and Delivery Chain Management

Key Performance Indicators KPI 3 a – b

LSE requires full delivery chain transparency from all Suppliers. All direct Suppliers and their delivery chain partners must adhere to wider HMG policy initiatives including the support and capacity building of micro, small and medium sized enterprises (MSMEs), prompt payment, adherence to human rights and modern slavery policies and support for economic growth in developing countries.

LSE recognises the critical value that downstream delivery partners contribute. Direct Suppliers must engage their delivery chain partners in a manner that is consistent with LSE’s treatment of its Suppliers. This includes, but is not limited to: appropriate pricing of services; fiduciary and financial risk management processes; applying transparent and responsive measures where delivery chain partners underperform against the KPI areas; taking a zero tolerance approach to tax evasion, corruption, bribery and fraud in subsequent service delivery or in partnership agreements. Direct Suppliers must cascade the principles of the Code of Conduct throughout their delivery chain to ensure LSE ethical behaviour standards are embedded and maintained.

Specific requirements for direct Suppliers include:

- ✓ Provide assurance to LSE that the policies and practices of their delivery chain partners and affiliates comply with the Code of Conduct;
- ✓ Ensuring delivery chain partner employees are expressly notified of the DFID ‘reporting concerns’ mail box³ found on DFID’s external website and of the circumstances in which this should be used;

4. Environmental issues

LSE Suppliers must be committed to high environmental standards, recognising that DFID’s activities may change the way people use and rely on the environment, or may affect or be affected by environmental conditions.

³ <https://www.gov.uk/government/organisations/department-for-international-development/about#reporting-fraud>

5. Terrorism and Security

Key Performance Indicators KPI 5 a – c

LSE Suppliers must implement due diligence processes to provide assurance that UK Government funding is not used in any way that contravenes the provisions of the Terrorism Act 2000, and any subsequent regulations pursuant to this Act.

LSE Suppliers must maintain high levels of data security in accordance with the Data Protection Act 1998 and any subsequent regulations pursuant to this Act, or new Act and with the General Data Protection Regulation (Directive 95/46/EC).

Specific requirements:

- ✓ Development and proof of application and embedding of a comprehensive Terrorism and Security Policy
- ✓ Development and proof of application and embedding of personal data processing processes within a Data Protection Policy
- ✓ LSE Suppliers must safeguard the integrity and security of their IT and mobile communications systems in line with the HMG Cyber Essentials Scheme⁴. Award of the Cyber Essentials or Cyber Essential Plus badges would provide organisational evidence of meeting the UK Government-endorsed standard;
- ✓ All LSE Suppliers who manage aid programmes with a digital element must adhere to the global Principles for Digital Development⁵, which sets out best practice in technology-enabled programmes
- ✓ Ensure that DFID funding is not linked to terrorist offences, terrorist activities or financing.

6. Safeguarding, Social Responsibility and Human Rights

Key Performance Indicators: KPI 6 a – b

Safeguarding, social responsibility and respect for human rights are central to LSE's expectations of its Suppliers. Suppliers must ensure that robust procedures are adopted and maintained to eliminate the risk of poor human rights practices within complex delivery chain environments funded by DFID and LSE. These practices include sexual exploitation, abuse and harassment; all forms of child abuse and inequality or discrimination on the basis of race, gender, age, religion, sexuality, culture or disability. Suppliers must place an emphasis on the control of these and further unethical and illegal employment practices, such as modern day slavery, forced and child labour and other forms of exploitative and unethical treatment of workers and aid recipients. DFID will expect a particular emphasis on the management of these issues in high risk fragile and conflict affected states (FCAS), with a focus on ensuring remedy and redress if things go wrong.

Specific requirements:

- ✓ Development and application and embedding of a Safeguarding Policy;
- ✓ Delivery of Social Responsibility, Human Rights and Safeguarding training throughout the delivery chain;

⁷ <https://www.ethicaltrade.org.eti-base-code>

- ✓ Practices in line with the International Labour Organisation (ILO) 138⁶ and the Ethical Trading Initiative (ETI) Base Code⁷ are to be encouraged throughout the delivery chain;
- ✓ Policies to embed good practice in line with the UN Global Compact Guiding Principles 1 & 2 on business and human rights throughout the delivery chain are required, as detailed in Annex 2;
- ✓ Overarching consideration given to building local capacity and promoting the involvement of people whose lives are affected by business decisions.

Annex 3a

Compliance KPIs and contractual checking mechanisms - LSE Contracts

Maintaining standards of assurance and driving sustainable improvements, in connection with the Code of Conduct's principles through Supplier relationships is a key focus for LSE.

Suppliers and their delivery chain compliance checking processes will take place in accordance with the agreed compliance levels and the specific contractual clauses down the delivery chain, LSE may undertake compliance checks.

Where appropriate, a plan setting out the Code of Conduct delivery methodology for the Supplier arrangements during the contract term may be jointly developed with LSE during Contract mobilisation.

ANNEX 4

Transfers of Personal Data to non-EEA Countries

Part 1

Definitions

For the purposes of this Annex 4:

- (a) “personal data”, “special categories of data/sensitive data”, “process/processing”, “controller”, “processor”, “data subject” and “supervisory authority/authority” shall have the same meaning as in Directive 95/46/EC of 24 October 1995 (whereby “the authority” shall mean the competent data protection authority in the territory in which the data exporter is established); the General Data Protection Regulation (GDPR) and The UK Data Protection Act 2018;
- (b) “the data exporter” shall mean the controller who transfers the personal data;
- (c) “the data importer” shall mean the controller who agrees to receive from the data exporter personal data for further processing in accordance with the terms of these provisions and who is not subject to a third country’s system ensuring adequate protection;
- (d) “provisions” shall mean these contractual provisions, which constitute a free-standing document that does not incorporate commercial business terms established by the parties under separate commercial arrangements.

The details of the transfer (as well as the personal data covered) are specified in Part 2 of this Annex 4 which forms an integral part of these provisions.

I. Obligations of the data exporter

The data exporter warrants and undertakes that:

- (a) The personal data has been collected, processed and transferred in accordance with the laws applicable to the data exporter.
- (b) It has used reasonable efforts to determine that the data importer is able to satisfy its legal obligations under these provisions.
- (c) It will provide the data importer, when so requested, with copies of relevant data protection laws or references to them (where relevant, and not including legal advice) of the country in which the data exporter is established.
- (d) It will respond to enquiries from data subjects and the authority concerning processing of the personal data by the data importer, unless the parties have agreed that the data importer will so respond, in which case the data exporter will still respond to the extent reasonably possible and with the information reasonably available to it if the data importer is unwilling or unable to respond. Responses will be made within a reasonable time.
- (e) It will make available, upon request, a copy of the provisions to data subjects who are third party beneficiaries under paragraph III, unless the provisions contain confidential information, in which case it may remove such information. Where information is removed, the data exporter shall inform data subjects in writing of the reason for removal and of their right to draw the removal to the attention of the authority. However, the data exporter shall abide by a decision of the authority regarding access to the full text of the provisions by data subjects, as long as data subjects have agreed to respect the confidentiality of the confidential information removed. The data exporter shall also provide a copy of the provisions to the authority where required.

II. Obligations of the data importer

The data importer warrants and undertakes that:

- (a) It will have in place appropriate technical and organisational measures to protect the personal data

against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, and which provide a level of security appropriate to the risk represented by the processing and the nature of the data to be protected.

- (b) It will have in place procedures so that any third party it authorises to have access to the personal data, including processors, will respect and maintain the confidentiality and security of the personal data. Any person acting under the authority of the data importer, including a data processor, shall be obligated to process the personal data only on instructions from the data importer. This provision does not apply to persons authorised or required by law or regulation to have access to the personal data.
- (c) It has no reason to believe, at the time of entering into these provisions, in the existence of any local laws that would have a substantial adverse effect on the guarantees provided for under these provisions, and it will inform the data exporter (which will pass such notification on to the authority where required) if it becomes aware of any such laws.
- (d) It will process the personal data for purposes described in Part 3 of this Annex 4, and has the legal authority to give the warranties and fulfil the undertakings set out in these provisions.
- (e) It will identify to the data exporter a contact point within its organisation authorised to respond to enquiries concerning processing of the personal data, and will cooperate in good faith with the data exporter, the data subject and the authority concerning all such enquiries within a reasonable time. In case of legal dissolution of the data exporter, or if the parties have so agreed, the data importer will assume responsibility for compliance with the provisions of paragraph I(e).
- (f) At the request of the data exporter, it will provide the data exporter with evidence of financial resources sufficient to fulfil its responsibilities under paragraph III (which may include insurance coverage).
- (g) Upon reasonable request of the data exporter, it will submit its data processing facilities, data files and documentation needed for processing to reviewing, auditing and/or certifying by the data exporter (or any independent or impartial inspection agents or auditors, selected by the data exporter and not reasonably objected to by the data importer) to ascertain compliance with the warranties and undertakings in these provisions, with reasonable notice and during regular business hours. The request will be subject to any necessary consent or approval from a regulatory or supervisory authority within the country of the data importer, which consent or approval the data importer will attempt to obtain in a timely fashion.
- (h) It will process the personal data, at its option, in accordance with:
 - (i) the data protection laws of the country in which the data exporter is established, or
 - (ii) the relevant provision of any Commission decision pursuant to Article 25(6) of Directive 95/46/EC and The EU General Data Protection Regulation (GDPR), where the data importer complies with the relevant provisions of such an authorisation or decision and is based in a country to which such an authorisation or decision pertains, but is not covered by such authorisation or decision for the purposes of the transfer(s) of the personal data, or
 - (iii) the data processing principles set forth in Part 2 of this Annex 4.
- (i) It will not disclose or transfer the personal data to a third party data controller located outside the European Economic Area (EEA) unless it notifies the data exporter about the transfer and
 - (i) the third party data controller processes the personal data in accordance with a Commission decision finding that a third country provides adequate protection, or
 - (ii) the third party data controller becomes a signatory to these provisions or another data transfer agreement approved by a competent authority in the EU, or
 - (iii) data subjects have been given the opportunity to object, after having been informed of the purposes of the transfer, the categories of recipients and the fact that the countries to which data is exported may have different data protection standards, or
 - (iv) with regard to onward transfers of sensitive data, data subjects have given their unambiguous consent to the onward transfer

III. Liability and third party rights

- (a) Each party shall be liable to the other parties for damages it causes by any breach of these provisions. Liability as between the parties is limited to actual damage suffered. Punitive damages (i.e. damages intended to punish a party for its outrageous conduct) are specifically excluded. Each party shall be liable to data subjects for damages it causes by any breach of third party rights under these provisions. This

does not affect the liability of the data exporter under its data protection law.

- (b) The parties agree that a data subject shall have the right to enforce as a third party beneficiary this paragraph and paragraphs I(b), I(d), I(e), II(a), II(c), II(d), II(e), II(h), II(i), III(a), V, VI(d) and VII against the data importer or the data exporter, for their respective breach of their contractual obligations, with regard to his personal data, and accept jurisdiction for this purpose in the data exporter's country of establishment. In cases involving allegations of breach by the data importer, the data subject must first request the data exporter to take appropriate action to enforce his rights against the data importer; if the data exporter does not take such action within a reasonable period (which under normal circumstances would be one (1) month), the data subject may then enforce his rights against the data importer directly. A data subject is entitled to proceed directly against a data exporter that has failed to use reasonable efforts to determine that the data importer is able to satisfy its legal obligations under these provisions (the data exporter shall have the burden to prove that it took reasonable efforts).

IV. Law applicable to the provisions

These provisions shall be governed by the law of the country in which the data exporter is established, with the exception of the laws and regulations relating to processing of the personal data by the data importer under paragraph II(h), which shall apply only if so selected by the data importer under that paragraph.

V. Resolution of disputes with data subjects or the authority

- (a) In the event of a dispute or claim brought by a data subject or the authority concerning the processing of the personal data against either or both of the parties, the parties will inform each other about any such disputes or claims, and will cooperate with a view to settling them amicably in a timely fashion.
- (b) The parties agree to respond to any generally available non-binding mediation procedure initiated by a data subject or by the authority. If they do participate in the proceedings, the parties may elect to do so remotely (such as by telephone or other electronic means). The parties also agree to consider participating in any other arbitration, mediation or other dispute resolution proceedings developed for data protection disputes.
- (c) Each party shall abide by a decision of a competent court of the data exporter's country of establishment or of the authority which is final and against which no further appeal is possible.

VI. Termination

- (a) In the event that the data importer is in breach of its obligations under these provisions, then the data exporter may temporarily suspend the transfer of personal data to the data importer until the breach is repaired or the contract is terminated.
- (b) In the event that:
- (i) the transfer of personal data to the data importer has been temporarily suspended by the data exporter for longer than one month pursuant to paragraph (a);
 - (ii) compliance by the data importer with these provisions would put it in breach of its legal or regulatory obligations in the country of import;
 - (iii) the data importer is in substantial or persistent breach of any warranties or undertakings given by it under these provisions;
 - (iv) a final decision against which no further appeal is possible of a competent court of the data exporter's country of establishment or of the authority rules that there has been a breach of the provisions by the data importer or the data exporter; or
 - (v) a petition is presented for the administration or winding up of the data importer, whether in its personal or business capacity, which petition is not dismissed within the applicable period for such dismissal under applicable law; a winding up order is made; a receiver is appointed over any of its assets; a trustee in bankruptcy is appointed, if the data importer is an individual; a company voluntary arrangement is commenced by it; or any equivalent event in any jurisdiction occurs

then the data exporter, without prejudice to any other rights which it may have against the data importer, shall be entitled to terminate these provisions, in which case the authority shall be informed where required. In cases covered by paragraphs (i), (ii), or (iv) above the data importer may also terminate these provisions.

(c) Either party may terminate these provisions if (i) any Commission positive adequacy decision under Article 25(6) of Directive 95/46/EC (or any superseding text) is issued in relation to the country (or a sector thereof) to which the data is transferred and processed by the data importer, or (ii) Directive 95/46/EC (or any superseding text) becomes directly applicable in such country or that these standard provisions are updated by the Commission on the basis of new law.

(d) The parties agree that the termination of these provisions at any time, in any circumstances and for whatever reason (except for termination under paragraph VI(c)) does not exempt them from the obligations and/or conditions under the provisions as regards the processing of the personal data transferred.

(e) In the event of termination of these provisions, the data importer must return all personal data and all copies of the personal data subject to these provisions to the data exporter forthwith or, at the data exporter's choice, will destroy all copies of the same and certify to the data exporter that it has done so, unless the data importer is prevented by its national law or local regulator from destroying or returning all or part of such data, in which event the data will be kept confidential and will not be actively processed for any purpose. The data importer agrees that, if so requested by the data exporter, it will allow the data exporter, or an inspection agent selected by the data exporter and not reasonably objected to by the data importer, access to its establishment to verify that this has been done, with reasonable notice and during business hours.

VII. Variation of these provisions

The parties may not modify these provisions except to update any information in Part 3 of this Annex 4, in which case they will inform the authority where required. This does not preclude the parties from adding additional commercial provisions where required.

VIII. Description of the Transfer

The details of the transfer and of the personal data are specified in Part 3 of this Annex 4. The parties agree that Part 3 of this Annex 4 may contain confidential business information which they will not disclose to third parties, except as required by law or in response to a competent regulatory or government agency, or as required under paragraph I(e). The parties may execute additional annexes to cover additional transfers, which will be submitted to the authority where required. Part 3 of this Annex 4 may, in the alternative, be drafted to cover multiple transfers.

Part 2

DATA PROCESSING PRINCIPLES

1. Purpose limitation: Personal data may be processed and subsequently used or further communicated only for purposes described in Part 3 of this Annex 4 or subsequently authorised by the data subject.
2. Data quality and proportionality: Personal data must be accurate and, where necessary, kept up to date. The personal data must be adequate, relevant and not excessive in relation to the purposes for which they are transferred and further processed.
3. Transparency: Data subjects must be provided with information necessary to ensure fair processing (such as information about the purposes of processing and about the transfer), unless such information has already been given by the data exporter.
4. Security and confidentiality: Technical and organisational security measures must be taken by the data controller that are appropriate to the risks, such as against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, presented by the processing. Any person acting under the authority of the data controller, including a processor, must not process the data except on instructions from the data controller.
5. Rights of access, rectification, deletion and objection: As provided in Article 12 of Directive 95/46/EC, data subjects must, whether directly or via a third party, be provided with the personal information about them that an organisation holds, except for requests which are manifestly abusive, based on unreasonable intervals or their number or repetitive or systematic nature, or for which access need not be granted under the law of the country of the data exporter. Provided that the authority has given its prior approval, access need also not be granted when doing so would be likely to seriously harm the interests of the data importer or other organisations dealing with the data importer and such interests are not overridden by the interests for fundamental rights and freedoms of the data subject. The sources of the personal data need not be identified when this is not possible by reasonable efforts, or where the rights of persons other than the individual would be violated. Data subjects must be able to have the personal information about them rectified, amended, or deleted where it is inaccurate or processed against these principles. If there are compelling grounds to doubt the legitimacy of the request, the organisation may require further justifications before proceeding to rectification, amendment or deletion. Notification of any rectification, amendment or deletion to third parties to whom the data have been disclosed need not be made when this involves a disproportionate effort. A data subject must also be able to object to the processing of the personal data relating to him if there are compelling legitimate grounds relating to his particular situation. The burden of proof for any refusal rests on the data importer, and the data subject may always challenge a refusal before the authority. For the avoidance of doubt, the GDPR stipulates an exemption where personal information is being used for the purposes of Research whereby these rights will not apply to the extent that they would prevent or seriously impair the achievement of those purposes.
6. Sensitive data: The data importer shall take such additional measures (e.g. relating to security) as are necessary to protect such sensitive data in accordance with its obligations under paragraph II.
7. Data used for marketing purposes: Where data are processed for the purposes of direct marketing, effective procedures should exist allowing the data subject at any time to “opt-out” from having his data used for such purposes.
8. Automated decisions: For purposes hereof “automated decision” shall mean a decision by the data exporter or the data importer which produces legal effects concerning a data subject or significantly affects a data subject and which is based solely on automated processing of personal data intended to evaluate certain personal aspects relating to him, such as his performance at work, creditworthiness, reliability, conduct, etc. The data importer shall not make any automated decisions concerning data subjects, except when:
 - (a)(i) such decisions are made by the data importer in entering into or performing a contract with the data subject, and
 - (ii) (the data subject is given an opportunity to discuss the results of a relevant automated decision with a representative of the parties making such decision or otherwise to make representations to that parties. Or
- (b) where otherwise provided by the law of the data exporter.
